Skip Counting

Suppose, starting with a given number, we write a sequence of numbers with a fixed gap between two successive numbers, then such a counting is known as **skip counting**.

Counting by twos means there is a gap of 2 in every two successive numbers.

Counting by tens means there is a gap of 10 in every two successive numbers, and so on.

Example 3: Counting by fives write numbers from 26819 to 26844.
